*Reasons for Allowance*

The following is an examiner's statement of reasons for allowance:

The prior art made of record does not teach or fairly suggest the combination of elements as recited in the independent claims. Specifically, the prior art of record does not teach:

information providing apparatus comprising:

a responding unit configured to cause the service providing apparatus to execute a plurality of processing units as the processing based on a single service providing request made by said terminal

a processing state obtaining part which obtains respective processing states of the plurality of processing units concerning the service providing request from said predetermined service providing apparatus; and a Web page generating part which, in response to a Web page display request made by said terminal, generates a Web page to display the processing states of the plurality of processing units by displaying the states of the plurality of processing units obtained via said processing state obtaining part, and transmits the thus-produced Web page to said terminal without waiting for respective completions of processing by the plurality of processing units

The dependent claims being definite, further limiting and fully enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
